

To Help A.G - Germany.

I am a girl in form one at Baraka Girls Centre where I am provided with free secondary education. I am with my sister who is also in form one at Baraka Girls and a brother who is in 12th grade this year. I am determined to learn upto university and achieve my goals.

In my primary education I and my sister had to struggle going for four days to school without food because our parents are no longer here to provide for us. We stay with our aunt who is jobless and struggles to feed us. It was so difficult for us to find a secondary school but by luck we got an opportunity for free education at Mum Wendy's place in Baraka Girls.

But still we have problems during the holidays since we have to do casual jobs to eat and sometimes its very difficult to find. At school I lack personal items like soap, toothpaste, sanitary towels, shoe polish and brown school shoes. There are also some school uniforms that I don't have like game shirts.

Most of all I want to send my gratitude and appreciation to Alex and Trudi for the opportunity that you have given me to achieve my goals.

I promise to work hard and focus on my education, and future performance in life. God bless you abundantly.

From Caroline Adhiambo,
